Welcome to Joanna Thomson Jewellery’s Classic Collection

In amongst the pages you will find some old favourites and some bright new designs. Don’t worry, there are still the instantly recognisable Art Nouveau styles, plus some two colour ranges, and all in mix and match pendant and earring suites.

There are lots of rings too, a bit of a speciality of Joanna’s, everything from simple patterned bands, single stone engagement rings to stunning multi-stone creations, like the one illustrated on the right.

All the designs in the catalogue are available in 9ct yellow gold or silver. Designs can be made in different colours and carats of gold but will be subject to additional charges.

As ever, with Joanna’s interest in gemstones, there is a wide choice of different colours, cuts and prices. There is a stone guide on Page 9.

Commissions are all part of the everyday work in the studio and you can find more information about this on page 15.

If you have any questions do not hesitate to contact the studio. Full Contact details on page: 19

NOT SEEN IT IN THE CATALOGUE?

Bracelets, cufflinks, tiaras, tie pins, animal motifs, dolphins and of course, cats...

Inevitably due to limited space, some designs had to be left out of this catalogue, but Joanna has an extensive archive of designs reaching back over 30 years, if you would like a bracelet then some of the drop earring designs can be linked to make one up, or you might have your own ideas you would like to discuss.

Cufflinks can be made with initials and birthstones, portraits of much loved pets have been created in precious metals as pendants, brooches and even rings. There are also horses, hedgehogs, mice, birds and otters. There is a whole range of dolphins leaping into necklets and earrings and then there are the cats. There is a leaflet devoted solely to Joanna’s cat designs, please request a copy.

So, basically, if you don’t see what you are looking for illustrated it is very likely that it could be made specially for you. Don’t be afraid to ask!
